## A BRIEF HISTORY

Montclair was first settled in 1678 by old stock Americans, who migrated from Branford, Guilford, Milford and New Haven, Conn. At this time the section in which Montclair is located was known as East Jersey, and Upper Montclair was called Speertown.

It is commonly known as the Mountain Town of Northern New Jersey, is an unusually attractive residential city. It is about fourteen miles from downtown New York City, and is one of the suburban cities of the metropolitan district, with a population of about 50,000. While many of its citizens are daily commuters to New York, yet it has flourishing service clubs, extraordinary women's clubs, housed in their own commodious buildings, an active Chamber of Commerce, and many of the other organizations one would expect to find in more isolated cities of equal size. The city boasts of a fine art museum.

Montclair, which is on the easterly slope of the First Watchung Mountain, is a city of beautiful homes. The houses are, in general, set back a distance from the street. Few places can boast of more spacious or attractively landscaped grounds. Wide-spreading trees arch their graceful limbs over the sidewalks and streets and add an air of beauty and quiet dignity and distinction. Many people have moved to Montclair because of the loveliness of the place.

Indeed there are many features about Montclair which attract people to its borders. But among those things which are remarkable, the public school system stands at the very top of those things which draw people with families. The school system is progressive in spirit and believes in and practices the teaching of children as individuals. The school buildings are all in excellent taste and are in keeping with their surroundings. People usually gravitate to a city they like. They like Montclair because of its schools and they intend to see that the schools are kept as good as any in the United States.

Modern commuting service has revolutionized American civic life. It has given the average man a chance to live as he likes. It is building a stronger and healthier citizenship.

The Lackawanna Railroad is justly proud of the role it has played in the growth and development of this attractive residential city. In September 1930, it gave to the people of Montclair the finest electrified suburban commuter service to be found in America, 84 trains a day—express running time 19 minutes.

The Greenwood Lake Branch of the Erie Railroad also gives excellent service to Montclair with five stations namely Montclair, Watchung Avenue, Upper Montclair, Mountain Avenue and Montclair Heights.

### "What You Should Know About Your City"

"The helpful kind of patriotism is the kind that grows out of a knowledge of one's town, of her growth, her people, her property, her government and her needs. This knowledge develops, first, an intelligent interest; then, a sympathy; then, a reasonable affection, a wise and temperate jealousy for her good name and a wish that she may prosper and grow more beautiful; and, finally, a desire to help her to become greater and finer, a bright and clean workshop and a home for the best of men and women."—John Cotton Dana.

## About City Directory Circulation

*The true value of advertising circulation is circulation consulted.*

*To be exact by actual survey in twenty-four average American cities by actual count each city directory averaged three and one-half consultations for each business day.*

*To be conservative we will eliminate the sixty Sundays and Holidays when no tests were made.*

*For every thousand directories sold there will be an average of three and one-half daily consultations for each book for three hundred and five days, therefore—*

CLEVELAND

Cleveland Directory, January 9, 1925  
Old Arcade,  
City,  
Gentlemen:

Referring to yours of yesterday acknowledging our order for Directory for 1925. Permit us to say that we know of no money we spend which brings so great a return as that for the City Directory.

Your product certainly represents a very important piece of work splendidly accomplished. In this connection also permit me to express my appreciation for the use of the directories of other cities which you keep on file in your office. I often find them a matter of great convenience and feel almost ashamed to make use of them without payment.

Very truly,  
THE W. B. DAVIS COMPANY,

## Have You a Message for Men?

LET the CITY DIRECTORY carry it home.  
Enlighten the public as to who you are,  
where you are and what you have to sell.  
The City Directory will keep your name before  
the public all the year 'round. Our copy writers  
will animate your advertising. And no man well  
supplied with mental gravity will differ from this: Per-  
petual Publicity Plus Personality Produces Patronage

## The Price & Lee Company

## Reference Advertising

**H**E who buys space in the City Directory buys advertising permanency. Every day thousands of business men all over the country search its classified sections to find where nationally advertised goods may be purchased. City Directory ("Reference") Advertising is the completing girder in the bridge between dealer and consumer, and should be part of all national and local campaigns.

# MONTCLAIR NUMERICAL DIRECTORY

## EXPLANATORY NOTES

The streets are arranged alphabetically with their descriptions, each description followed by a numerical arrangement of householders, places of business and street intersections. (Arranged by rotation where no numbers have been assigned.)

The abbreviation r between the street number and the name signifies "rear".

The word "vacant" after a number signifies that the house, office or store at that number was vacant when the canvass was made.

Δ Indicates telephone at this number.

"(Right even)" after street description indicates even numbers on right side of street.

The symbol ⊙ following a householder's name indicates that information has been secured during the canvass that the house is owned by some member of the family, but as the publishers cannot and do not guarantee the correctness of the information furnished, nor the complete absence of mistakes, no responsibility for errors can be or is assumed, nor can the publishers furnish further information than that shown.
